

RV-A

Revolving Warning Light

Bulb

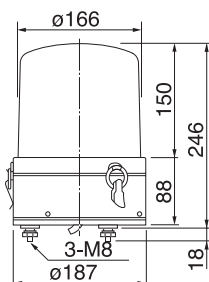

ø187

Vibration-proof

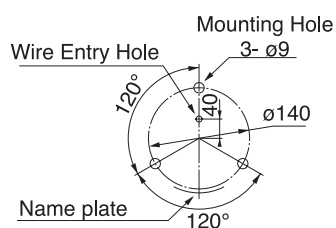

Vibration-proof Revolving Warning Light ideal for highly vibrating devices such as overhead-, gantry, and jib cranes.

- Integral Rotating Parabolic Reflector: For enhanced visibility from a distance.
- Rotary Mechanism: Belt-drive, for stable rotation under vibration.
- Extended Product Life: Vibration resistant and reliable under severe cold environment (-30°C).
- Extended Bulb Life: Vibration-resistant automobile bulb.
- Dome: Superior weather-resistant and light-translucent AS resin.
- Available Colors: Red, Amber.
